**13 June 2008**

**Ref:** Cadbury, PLC Further Response to May 8, 2008 Inquiry

Dear Chairman Dingell and Chairman Stupak:

This is a follow-up response to your letter of May 8, 2008, in which you requested certain information relating to the safety of food sold in the United States. In our prior submission on May 30, 2008, we provided information responsive to your request for our domestic operations. For our international operations in the Americas which provide products to the United States, we provide the following information responsive to your request. We also are including in this response relevant information from other foreign operations that we have collected. Supplemental information regarding our remaining international operations will be provided to the Committee no later than Thursday, June 19, 2008. We thank you and your staff for allowing additional time in the preparation of our response.

In compiling our response, we reviewed relevant documents in our files, including the files of our production and manufacturing facilities in Canada, Mexico, and the Central and Southern Americas. We contacted the Cadbury employees who would be responsible for collecting and maintaining the relevant information. As indicated in our prior response, we have not been able to review all potentially relevant documents since January 2000 because Cadbury acquired Cadbury Adams in March 2003 and we have limited information in our files prior to the acquisition.

people love

Our response to each of the questions is set forth below with additional information, which is considered confidential, attached.

Question #1: *A list of all food recalls and food safety alerts issued by your company. For each recall or safety alert, please provide the date of the recall or alert, the product and brand affected, and the reason for the recall or alert. If the food was affected by microbial or chemical contamination, please identify the contaminant.*

Cadbury has not recalled any food products manufactured for sale in the United States since January 1, 2000 by our domestic or foreign operations. We note that since 2000, our foreign operations have been involved with two recalls of products sold in the United States, both of which involved Halls® cough drops. Because FDA regulates cough drops as over-the-counter drugs, we do not view these recalls as responsive to the Committee's question. We, therefore have not provided additional details on these recalls.

There also has been one instance in the past seven years when Cadbury became aware of a potential issue involving one of the products manufactured by a foreign operation that received very limited distribution in domestic markets. We notified FDA that we had retrieved that product from the market. Please see Attachment 1 for details regarding this incident.

#### *Questions 2-6*

We have no supplemental information to add to our May 30, 2008 response to Questions 2 through 6 for our international operations in the Americas.

\* \* \* \*

As I stated in my prior response, the safety of our products is paramount to Cadbury. We also do not view this submission as waiving, any rights, privileges, or immunities. Cadbury will be completing its review of its remaining foreign operations and submitting our final response on June 19<sup>th</sup>.

If I can answer any questions concerning the information provided herein, please do not hesitate to contact me.

Respectfully submitted,

H Todd Stitzer  
Chief Executive Officer  
Cadbury Holdings Limited
